

Golden Glenrothes Charretteplus®

Fife Council | Glenrothes | 2017-2018

PROJECT SUMMARY

Golden Glenrothes, named by the pupils of Glenwood High, engaged the Glenrothes West neighbourhoods of Macedonia, Tanshall, Caskieberran in the future of their place. Conversations focused on the regeneration of the Glenwood Centre, and addressed broad issues such as transport, access, and greenspace. It generated ideas from young people (local primary and high schools), businesses and the wider community in a series of workshops and walkabouts.

WHY WE DID IT

To produce a community led plan focused on the improvement of the retail and community precinct - the 'Glenwood Centre' - sitting at the heart of Glenrothes West, to improve movability and connectivity across the three neighbourhoods, to provide better access to green space, and to build community capacity in the area.

OUTCOMES/ ACHIEVEMENTS

- A Community led Glenrothes West Action Plan - being taken forward through the establishment of the Macedonia Action Group.
- A Spatial masterplan for the Glenrothes West area incorporating access, green space, movability and transport options.
- A Costed Masterplan for the Glenwood Centre which Fife Council is committed to moving forward.
- Wide civic engagement through a series of charrette design workshops, youth engagement events, and a community survey.
- An excellent example of the benefits of linking land use and community planning.
