

What's Next for Stromness?

Orkney Islands Council | Stromness Local Place Plan | 2019

PROJECT SUMMARY

Funded by Sustrans, this Local Place Plan (LPP) was developed in partnership with Stromness Community Development Trust, Stromness Community Council and Orkney Islands Council through a series of conversations with the people of Stromness. It created a ten-year plan, building on award-winning regeneration and investment delivered over the last decade and more.

WHY WE DID IT

To identify and develop suggestions raised by the community for the future of the town, allowing them to focus on key areas and priorities for future change.

To create a community supported action plan, with a series of projects for the community to promote and deliver.

This Plan will provide a community-led framework for the future of Stromness, and a collaborative action plan to make that future a reality

Gordon Deans - Chairman, Stromness Community Council

OUTCOMES/ ACHIEVEMENTS

- The creation of a community led LPP, as encouraged in the Planning (Scotland) Act 2019.
- One Shared Vision, 5 Themes, 18 Projects with timeframes, delivery partners and illustrated proposals.
- Community based principles to guide all existing and future projects in Stromness.
